Math Strategy Group: Order of Operations

Watch the video together.

Do the practice problems in your notebook together. Remember to follow PEMDAS and simplify along the way.

Take the exit slip in your notebook alone and turn in this assignment.

Pre Assessment Independent Small Group Post-Assessment

My goals: I will develop a thesis statement to develop my idea for my MarsX writing piece.

I made a claim or thesis on a topic or text, supported it with reasons, and provided a variety of evidence for each reason.			
Structure			
	Not Yet	Starting To	Yes!
Lead	I wrote an introduction that led to a claim or thesis and got my readers to care about my opinion. I got my readers to care by not only including a cool fact or jazzy question, but also figuring out what was significant in or around the topic and giving readers information about what was significant about the topic. Details	I worked to find the precise words to state my claim. I let readers know the reasons I would develop later.	I worked to find the precise words to state my claim.
