

**Webster Groves School District  
Building Advisory Committee  
Minutes for  
October 22, 2015**

**I. Committee Membership:**

Bruce Wood, Committee Chair, introduced new members appointed to the committee. Each BAC member shared their professional background.

**II. Future Community Forum for Facility Issues:**

Diane Moore shared a draft video to start the conversation regarding a future community forum focusing on school district facilities. Committee members engaged in conversation regarding the format and topics. The committee members focused on what the message should be for this forum:

- Discuss previous bond issues – the district did what it said. The first part of forum should focus on what we have accomplished and the district completed all work on time and at or under budget;
- The second phase of the forum should address where we are right now. While we have accomplished significant work – the buildings are old and must have constant attention. Also discuss the needs at Moss Field and why the district purchased the new Service Center.
- Finally create “testimonials” on the video. What has the past work accomplished for educational quality. Testimonials can also address existing needs (space, ADA etc...).

### **III. Next Meeting:**

The Building Advisory Committee will meet again on Thursday, November 11, 2015. The meeting will focus on the future community forum and the priorities for remaining 2010 bond issue funds. This meeting will be in the Service Center at 5:30 p.m.
