

COVID-19 ACTIVE CASES DASHBOARD

Week of October 26

UPDATED 11/2/2020

The purpose of this data is to provide our WGSD families and staff with a transparent summary of active COVID - 19 positive cases and exposure resulting in exclusion from school activities. This dashboard will be updated weekly, by 5:00 pm every Monday.

A **positive case** indicates that the student or staff member has been tested and received a report confirming he or she has the COVID-19 virus. These individuals will be isolated for a minimum of 10 days, and can return to campus with written release from the St. Louis County Health Department.

Data for **exposure/quarantine** includes individuals who have not tested positive, but have been identified through contact tracing of self-reported interaction with the person who may have been exposed to COVID-19. Individuals who have been in close contact (within 6 ft. for 15 minutes or more) are instructed to seek guidance from a medical professional and/or the health department and can return to campus with written release from the health department and/or local health professional.

Parents/Guardians: Ensuring your child and the educational environment is safe is our top priority. We will follow and maintain all FERPA regulations when determining whom to notify regarding exposure to COVID-19. If your student is considered a close contact (within 6 ft. for 15 minutes or more), you will receive a phone call from a school administrator or designee.

STUDENTS

Total positive cases in WGSD

	Number	Percentage	Cumulative
	(2)	0.05%	(9)

Total number of students quarantined due to possible exposure

	Number	Percentage	Cumulative
